

Internship JD – Design Intern (UI/UX & Creative)

A Design Intern supports the creative and product teams by producing digital designs, user interfaces, and marketing assets. This role sits at the intersection of creativity, problem-solving, and user experience.

Key Responsibilities:

- **UI/UX Design:** Create wireframes, prototypes, and mockups for web and mobile applications.
- **Graphic Design:** Develop marketing visuals, social media posts, and presentation materials.
- **Brand Alignment:** Ensure consistency in colors, typography, and design elements across platforms.
- **Collaboration:** Work closely with developers and marketers to translate ideas into visuals.
- **Trend Research:** Stay updated with design trends, usability standards, and creative tools.

Skills & Tools:

- Design Tools: Figma, Adobe Photoshop, Illustrator, Canva.
- Basic Knowledge: UI/UX principles, typography, color theory.
- Creative Thinking: Ability to come up with fresh ideas and visual concepts.
- Communication: Ability to explain design choices to non-designers.

Common Related Job Titles:

- UI/UX Designer Intern
- Graphic Design Intern
- Creative Designer Intern
- Product Design Intern
